*****PRESS RELEASE*****

On Thursday, December 15, 2016 shortly after 10:00 p.m., Officers responded to a residence on Jeremy Gardens Lane on a report of a possible burglary in progress. The resident was upstairs when she heard suspicious noises on the first floor. Upon arrival police found that entry into the home had been made by unknown suspect(s) who removed a screen and forced open a ground floor window. No suspect was located within the home; however items inside the home had been disturbed. At this time nothing has been reported missing from the home. Suspect(s) appeared to have fled when the resident came downstairs and turned on the lights inside and outside the home. The scene was processed for forensic evidence by the Woodbridge Police Department's Investigative Services Unit. A State Police K9 did respond and attempted to track the suspect(s). The K9 track lead to the area where the resident saw the suspect's vehicle parked in her driveway. Said vehicle, which was seen by Police in the area on several occasions earlier on this same day, was subsequently located this morning in New Haven. The investigation is ongoing.

Anyone with any information regarding this incident is asked to contact this Department's Investigative Services Unit at 203-387-2511.

Reference Case Number 16-21240
