## Updates for the Month of May

Many meetings and events have taken place this past month, including a de-briefing with our Public Safety and Public Works personnel and representatives from UI to discuss storm response. I brought forward all the feedback I received from residents and I will continue to follow-up to ensure we make the necessary improvements to better serve you. Thank you for providing me with your input.

### Next Steps for the former Country Club Property

At an April 25<sup>th</sup> meeting of the Board of Selectmen, we reviewed the results of the recent Public Opinion Survey with the Amity Statistical Analysis Team and the Board discussed their thoughts. We also heard comments and questions from members of the public. If you were not able to attend, please know that you can still send in your comments or questions, or speak during Public Comments at our May 9<sup>th</sup> BOS meeting. As the Board takes next steps to consider what to do with this beautiful property, I will keep you apprised with

updates at the Town website: [WoodbridgeCT.org](http://WoodbridgeCT.org)

### Community Coming Together

I would like to thank everyone who came out to participate in two recent community events. Our successful Rid Litter Day event on April 22<sup>nd</sup> and our Farmers Forum on April 18<sup>th</sup> are examples of what we can do as a community when we pitch-in together and take the time to listen to each other, neighbor to neighbor. These gatherings were the result of collaboration between the Town and some thoughtful, dedicated volunteers who helped plan the events. I want to again express my deep appreciation.

### Please Keep In Touch

The best way to be sure you know about future events, and to provide me with your feedback, is to receive our email communications. Please check that you are signed up by visiting: [TinyURL.com/WoodbridgeEnews](http://TinyURL.com/WoodbridgeEnews)

## Storm Safety Tips

April showers may bring May flowers, but March brought severe weather. The Woodbridge Fire Dept. responded to more than 240 emergency calls during two March storms, many of which involved downed power lines.

Crews also responded to carbon monoxide emergencies because generators were outdoors but too close to windows and doors. Safety tips are highlighted below.

### Downed Power Line

- Fallen power lines may be “live” with electric current and therefore dangerous — keep children and animals away from fallen lines.
- Avoid touching downed lines with your hand or any other object.
- Avoid touching any object, such as a tree, car or equipment, or anyone who is in contact with a fallen power line.
- Do not drive over or under a fallen power line or move barricades.
- Call UI at 800-722-5584 to report unsafe conditions and to clear trees or trim branches from fallen power lines.
- Immediately call 9-1-1 to report a fallen power line.

### Safe Generator Use

- Only use portable generators outdoors in well ventilated locations at least 15 feet away from all doors, windows, and vent openings.
- Exhaust must be directed away from the building.
- Have a qualified electrician install a properly rated transfer switch in accordance with the National Electrical Code® (NEC) and all applicable state and local electrical codes when a generator is connected to house wiring to power appliances.

May is Electrical Safety Month. For more information and safety tips, please visit [WoodbridgeFire.com](http://WoodbridgeFire.com) and follow us at [Facebook.com/WoodbridgeFire](https://www.facebook.com/WoodbridgeFire).

## Local Residents Speak About Famous Protest

The library will be screening *A Hero for Daisy* on Thu., May 3 at 7 pm. This documentary chronicles two-time Olympian and Title IX pioneer, Chris Ernst.

In 1976, Chris galvanized her rowing team at Yale University to storm the athletic director's office to protest substandard conditions for the women. Nineteen women stripped, exposing the phrase "Title IX" emblazoned in blue marker. The demonstration was covered by all of the major news outlets the following day, and the Yale phones started ringing. The women found themselves with new locker rooms two weeks later. The nation, by virtue of this action, became acquainted with Title IX.

Mary O'Connor, a freshman of the Yale rowing team at that time who participated in the strip, and Nat Case, the women's crew coach at that time, will speak after the film screening about the famous event and fill in any colorful details not covered in the film.

## Check Out Our Community Resources!

Loneliness, isolation and boredom can be dangerous — in fact, twice as likely to cause depression and negatively impact overall health. The National Social Life, Health and Aging Project at the University of Chicago concluded, “Seniors who feel lonely and isolated are more likely to have poor physical and/or mental health.” Regular socialization, physical activity and mental stimulation can boost overall health and provide a better quality of life. Instead of staying home alone, call for a ride and come visit The Center. Residents are invited for lunch, exercise and educational classes, and are welcome to join the book club, play cards or other games. Volunteering is encouraged!

The Center provides a great way to be with friends, meet new people and try new activities. If you want to look forward to something, we'll look forward to seeing you!
